

Generate insights using Harmoni

The collaborative investigation platform for market research data.

Harmoni is Infotools' powerful cloud-based software, purpose-built for market research data. From data processing through to analysis, reporting, visualization, dashboards, distribution, and data alerts, Harmoni does it all. It's a true data-to-understanding solution to help you get the most out of your market research data.

Harmoni user roles

Competitive advantages in a customer-centric world come from deep insights into what consumers think and how they act. Achieving this in a timely manner requires market research data at your fingertips.

Harmoni is designed to cater for different types of users – everyone from insights professionals to data gurus to frontline decision-makers. We've lined up the features and functionality with what each type of user needs to help them be more effective, efficient and successful in their roles.

Harmoni Viewer

Viewers use data to measure progress, assess growth, understand market position, and evaluate the competition. Viewers turn the insights discovered by others into meaningful action – and this is where the true value in your data culminates and is revealed.

Harmoni Explorer

Explorers use data every day to support better understanding. As insights often lie deeper in the data, Explorers go beyond standard reports to find answers to specific questions as they arise. With sufficient training, Explorers thoroughly analyze the data and build specific, customized analyses and visualizations.

Harmoni Creator

Creators are the true data expert, people with a deep understanding of how to process, integrate, and organize raw data. Creators are experts in complex analysis, delivering data in a form that empowers others to work more effectively, understand people, and make better decisions.

Expert implementation, insights services & support

Our expert insights services team has proven experience in delivering long-term value, with numerous 10+ year relationships with some of the world's most renowned brands. Through our professional services, support, and software, we enable organizations to be truly data-driven and act on deeper insights with greater confidence.

Harmoni pricing

Our pricing is simple and easy to understand. There's no minimum users, no unexpected extras, mandatory add-ons, or data volume costs. You can use Harmoni however is best for you.

Harmoni Viewer

By allocation

with paid licenses & services*

- ✓ View stories and dashboards that have been shared with them.
